* NOTE: Our calories are given using the industry-standard Modified Atwater (i.e., Metabolizable Energy) equation, which assumes that pet food is 90% as digestible as human food. However, we believe that Evermore is a fully digestible food, and therefore feel that the Atwater calculation (i.e., gross calories, which is what the USDA uses to calculate human food calories) should be considered as well. These numbers are 1,049 kcal/kg., 476 kcal/lb., and 30 kcal/oz AS FED, and 4,847 kcal/kg., 2,199 kcal/lb., and 137 DRY MATTER.
